-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 April 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Figures 1-8, drawn to a step assembly and mounting member for attachment to a trailer hitch receiver of a vehicle including a bumper in which the step assembly is pivotable about a horizontal axis through the mounting member and wherein a spring-biased L-shaped latch engaging with a crescent-shaped flange of the mounting member is provided to selectively lock the step assembly in a deployed (lowered) position and a raised (stowed) position while the latch remains in proximity to the mounting member;

Species II: Figures 9-14, in which the spring-biased latch is made to differ by being provided as a horizontally extending latch at the forward portion of the step assembly

Species III: Figures 15-16, in which the step assembly of Species II is further provided with a forwardly installed step cover provided as a co-planar extension to the stepping surface of the Species II step assembly; and

Species IV: Figure 17, in which the forwardly installed co-planar extension to the stepping surface of the Species III is made to differ by being hinged to the forward edge of the stepping surface and rotatable 180 degrees to latch contiguous with the stepping surface when the step assembly is stowed in the raised position.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1 and 17 appear to be generic.

Art Unit: 3618

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. A telephone call was made to Attorney of record, Ms. Linda Palomar, Reg. No. 37,903 on August 4, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made. Attorney Palomar requested that a written requirement be sent.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
